Replying to your inquiry of the 22nd inst., regarding the covering of the diaphragms charge, which we made on the bill submitted to you, we wish to state and inform you herewith, that this matter is simply a mistake on the part of our bookkeeper, through misinformation by the workingman who worked on the job. Nevertheless, in the meantime we have received a bill from our varnisher for doing some extra work at the museum, and amounting to SIXTEEN & 50/100 (\$ 16.50) DOLLARS, for finishing up the cases on the inside, and also touching up, these items we have never figured, and we are therefore obliged to charge you same. We have charged you with 1/2 days labor, for covering the frames, which is three (\$ 3.00) Dollars, the amount amount of three dollars for covering we will credit you with, but for the extra bill which our varnisher placed into our hands we will be obliged to charge you with.

If we can't have our present room, it would give us
fine room for special exhibitions and exhibitions that would frequently change
without interfering with our more permanent exhibitions, that we have in the
Galleria. I hope you will let me know what you think about this, and if you can,
be very much better fixed.

Gentlemen:-

We enclose herewith a small bill for extra work which our varnisher reported as having performed at the building, and for which we have this day received a bill from him. We were not aware of the fact that he had done any other work outside of the wardrobe, and therefore have not charged it on the first bill. We trust that this matter will not inconvenience you in any shape or way, namely our failure to send same and to have it charged on the first bill.

Thanking you for your past favors, and trusting to be of further services to you, we beg to remain,

Messrs. Abramson, Engesser Co.,
1971 & 1973 First Avenue,
New York.

Dear Sirs:-

Your letter of October 12th with bill for varnishing amounting to two dollars and fifty five cents has been duly received. As regards this varnishing I would say that this is all work that should have been done on the former contract for putting up the shelves in my office, and making the new cases in the main room. As Mr. Engesser knows, the under part of the shelves were not varnished as they should have been, and he agreed to have this done the first time any work was being done up here. In the main room the moulding around one of the new cases was left in an unfinished condition, and this had to be varnished to make it match the rest of the cases, and a little further touching up was done, but all of it was work that should have been done at the time these cases were put up. I paid for these cases and the shelves in my office a long time ago, and it was understood at that time that this varnishing, which had not been done, should be done, and that being the case I do not think any bill should have been sent to the Society for this work, and I return this bill herewith.

Very truly yours,

Director.
